## Water Service Notice - Possible Discoloration

**ESTE INFORME CONTIENE INFORMACION MUY IMPORTANTE SOBRE SU AGUA DE BEBER. TRADUZCALO O HABLE CON ALGUIEN QUE LO ENTIENDA BIEN.**

On **Saturday morning, April 21, 2018**, Hazleton City Authority (HCA) will perform a tie-in to the 12 inch water main in Humboldt East Industrial Park near Harwood PA. This tie-in **will not** involve a water service interruption to HCA customers, however, some HCA customers in the **Harwood area, the Greenridge Section of Hazle Township, and West Hazleton** may experience lower than normal pressure on Saturday from approximately 8:00 A.M. to 5:00 P.M.

The water line tie-in will be performed on Saturday to lessen the impact on Authority customers, however, customers in the Harwood area, the Greenridge Section of Hazle Township, and West Hazleton **may experience some discoloration** in your drinking water starting on **Saturday morning and possibly lasting into Sunday**.

Due to the size of this water main tie-in, some water discoloration is inevitable, and while the water mains and drinking water supplied by the Hazleton City Authority is properly disinfected, discolored water is not aesthetically pleasing and therefore the Authority does not recommend customers drink discolored water. **Customers in the above mentioned areas are asked to store some water for drinking purposes prior to Saturday morning**. Also, if possible, customers in the above areas are asked to refrain from washing clothes on Saturday and Sunday, due to possible discoloration in the water.

Because this is a controlled shutdown and does not represent an expected hazard, the Hazleton City Authority is **not** issuing a boil advisory as a result of this work.

We apologize for any inconvenience and thank you for your patience. As always, you may contact the Hazleton City Authority at 570-454-2401 if you have any questions regarding your drinking water.
